

How to Play in Five Minutes

THE D20 TEST

When an outcome is uncertain, roll a d20 and add the relevant modifier. Meet or beat the DC or Armor Class. The three D20 Tests are ability checks, saving throws, and attack rolls.

On Your Turn

- Move up to your Speed; you can split movement before and after your action.
- Take one action: Attack, Dash, Disengage, Dodge, Help, Hide, Influence, Magic, Ready, Search, Study, Utilize, or an adventure action.
- Use one Bonus Action only when a feature or spell says it is a Bonus Action.
- Use one reaction between your turns when a feature or opportunity attack permits it.

Common Rules

- Advantage: roll two d20s and use the higher. Disadvantage: use the lower.
- Critical Hit: a natural 20 on an attack rolls the attack's damage dice twice, then adds bonuses once.
- Help: assist with a skill or tool you have, or distract an enemy within 5 feet for an ally's next attack.
- Heroic Inspiration: after rolling any die, expend it to reroll; you must use the new roll.
- Short Rest: spend one or more Hit Point Dice and add Constitution to each die. Recover features that say Short Rest.
- Long Rest: after at least 8 in-world hours, regain all HP and spent Hit Point Dice, spell slots, and features that recover on a Long Rest.
- Concentration: after taking damage, make a Constitution save, DC 10 or half the damage taken, whichever is higher.
- At 0 HP: fall unconscious and make death saves. A d20 roll of 10+ is a success; three successes stabilize and three failures are deadly. Healing wakes you.
- Creative play: state your goal, method, and what makes it possible. The GM decides whether it works or requires a roll.

TEAM REMINDER

Bramble protects allies and controls space.

Nyx scouts, solves locks, and uses Sneak Attack beside an ally.

Elio inspires early, controls enemies with magic, and heals fallen friends.
